PROFILE

Curious and motivated Computer Science student with a growing interest in software development and hands-on exposure to Python. Committed to building practical skills through real-world projects and continuous learning. Looking forward to contributing to innovative teams while developing a strong technical foundation.

EDUCATION

2022 – 2026	Bachelor of Technology in Computer Science and Engineering
Hyderabad	<i>Sri Indu College of Engineering and Technology</i> CGPA: 9.0
2020 – 2022	Intermediate
Hyderabad, India	<i>Narayana Junior College</i>
2014 – 2020	Secondary Education(SSC)
Hyderabad, India	<i>Bhashyam High School</i>

PROJECTS

NESA Mobile Application (Prototype)

Java, XML, Android Studio

- Developed a prototype Android application to display ISRO-related staff and activity information.
- Designed UI screens using XML and integrated Java code (with AI guidance) for navigation and data flow.
- Connected the app to Firebase to store and retrieve member data in real-time.

Vertigo Identification and Prediction System

Python, Machine Learning, Scikit-learn, Random Forest, Decision Tree

- Built a machine learning-based system to predict vertigo symptoms based on user data.
- Implemented classification models using Decision Tree and Random Forest algorithms to improve prediction accuracy.
- Handled data preprocessing, feature selection, and model evaluation using Python libraries like pandas and scikit-learn.

TECHNICAL SKILLS

Python, JavaScript

Frameworks & Libraries: React.js, Express.js, Node.js

Tools & Technologies: Android Studio, Firebase
MySQL

PROFESSIONAL EXPERIENCE

Oct 2024 – Dec 2024 **Intern – NRSC (National Remote Sensing Centre – ISRO)**

CERTIFICATES

- Certification on Python Programming Fundamentals
- Machine Learning in Python-SWAYAM
- Certification in Introduction to Artificial Intelligence

LANGUAGES

- Telugu, English, Hindi
